Korea Advanced Institute of Science and Technology (KAIST) Mar 2015 – Feb 2020

B.S. in Electrical Engineering

- GPA: 3.75/4.3 (Graduated Cum Laude)

Work Experience

Research Scientist, EverEx – Seoul, Korea (Mandatory Military Service) Aug 2025 – Present

- **3D/4D Generation:** Develop high-quality scene generation by seamlessly integrating video generative models with scene reconstruction models. Design an end-to-end framework to directly produce 3DGS only from text prompts, and introduce an inference-time scaling strategy for geometrically accurate video generation.
- **Video Generation and Understanding:** Develop camera-controlled video-to-video generation methods. Study multi-view video understanding by enabling VideoLLMs to perform 3D reasoning across viewpoints.
